REHABILITATION COMMITTEE REPORT

Marco Conti

O. Gagey , A. Jaggi , A. Gerber Popp, S. Respizzi, O. Verborgt

This year the activity of our committee was mainly focused on:

- strengthening of the collaboration with the EUSSER board
- setup of the conjoint (SECEC + EUSSER) Rheb Day of Milano
- start of the relationship with the new German Pts Network
- support of EUSSER for realization of international - national events based on the collaboration of shoulder expert PTs and shoulder surgeons

For the future I would suggest to the following program to the Executive Committee:

- setup of the next conjoint SECEC + EUSSER Rehab day
- setup of a fellowship program across Europe for PTs shared with EUSSER and having SECEC surgeons team as reference points
- setup of conjoint (surgeons + PTs) researches collecting anonymous data from several team in Europe, where Surgeons and PTs have the chance to collaborate side by side, on selected type of surgery and different Rehab approach to compare output
- development of shared consensus between SECEC and EUSSER on the conceptual lines of approach to the rehab of major shoulder problems, like
 - RCT post op
 - Irreparable RCT
 - Post prosthetic surgery rehab
